

West Virginia State Treasurer's Office
John D. Perdue, Treasurer

Debt Position Report

as of December 31, 2007

Including debt information for 1st & 2nd quarters, Fiscal Year 2008

Introduction

During the 1991 Regular Session, the Legislature created the Division of Debt Management which is under the auspices of the West Virginia State Treasurer's Office. Through this Division, the Treasurer is responsible for monitoring the state's total debt position. This Debt Position Report is a compilation of statistical data concerning the state's debt as of December 31, 2007. The Report examines debt instruments of state agencies including General Obligation Bonds, Revenue Bonds and Lease Obligations.

Disclaimer

Information used to compile this report is gathered from outside sources that are considered reliable and complete; however, this report is not audited. Also, please note that the report does not include information on other liabilities such as claims and judgments, accrued compensated absences, pension costs, other post-employment benefit costs or other liabilities of the State of West Virginia.

If you need additional information, please feel free to contact the West Virginia State Treasurer's Office at (800) 422-7498 or (304) 558-5000.

Definitions Used Throughout This Report

General Obligation Bonds

General obligation bonds are secured by the full faith and credit of the State of West Virginia. If the general revenues or dedicated funds are insufficient to pay the debt service on the bonds, the State must levy taxes in an amount sufficient to pay such debt service. To issue general obligation bonds, an amendment to the West Virginia Constitution must be approved by a 2/3rds vote of both houses of the West Virginia Legislature and a majority of the voters.

Revenue Bonds

(Which rely on the General Revenue Fund for debt service payments)

The only agency to issue this type of obligation has been the West Virginia School Building Authority. The bonds are secured by a pledge of general revenue funds and a moral commitment of the State of West Virginia to appropriate funds to make up any deficiency of the revenues needed to pay the debt service. The West Virginia Supreme Court ruled on July 22, 1993, that this funding mechanism could no longer be used as it creates a debt of the State in violation of the West Virginia Constitution. However, the Court authorized the bonds that had been issued and authorized refundings.

Lottery Revenue Bonds

Revenue bonds that are secured by a dedicated revenue stream of certain funds of the West Virginia Lottery.

Revenue Bonds

Revenue bonds are secured solely by a specified revenue stream, often with a lien imposed on the revenues. The revenue stream may be a tax or assessment or the revenues of the project financed.

Lease Obligations

For purposes of this report, lease obligations do not include operating leases of the state and its agencies, but do include certain mortgage agreements of the Division of Natural Resources and other state agencies. A lease obligation is an agreement in which the lessee (person leasing from another) assumes substantially all the risks and benefits associated with the asset, and meets one or more of the following criteria:

- a) Ownership of the leased asset is transferred no later than the end of the term.
- b) The terms and conditions contain a bargain purchase option which allows the State as lessee to buy the leased asset for substantially less than its estimated value.

- c) The term is 75% or more of the estimated economic life of the leased asset. Estimated economic life is the estimated useful life of the asset for the purpose for which it was intended, regardless of the term of the lease.
- d) The Present Value of the Future Minimum Lease Payments at the beginning of the lease equals or exceeds 90% of the fair value of the leased asset.

Notes/Other Debt

Notes are short-term debt obligations, generally with a term of five years or less. Forms of notes include tax anticipation notes, revenue anticipation notes, grant anticipation notes and some certificates of participation.

West Virginia Tax Supported Debt Outstanding

The State of West Virginia had a net tax supported debt of \$1.56 billion at December 31, 2007. The next tax supported debt calculation in this report does not include claims and judgments, accrued compensated absences, pension costs, other post-employment benefit costs or other liabilities of the State of West Virginia. Most of these obligations are detailed in the State's Comprehensive Annual Financial Report (CAFR) which is available from the Division of Finance of the Department of Administration or online at www.wvfinance.state.wv.us. The net tax supported debt calculation included in this report includes General Obligation Bonds, Revenue Bonds of the School Building Authority which rely on an appropriation from the general revenue fund for debt service, Lottery Revenue Bonds, and lease obligations of various state agencies.

The West Virginia State Treasurer's Office issues an annual Debt Capacity Report in January of each year as required by West Virginia Code §12-6b-1 et.seq. The following chart is taken from data in that report and shows the net tax supported debt outstanding for the next 10 fiscal years.

General Obligation Bonds

Approximately \$673 million (net of escrowed bonds) of West Virginia's \$1.56 billion in outstanding tax supported debt as of December 31, 2007 consisted of General Obligation (GO) bonds. This is a \$29 million reduction of GO debt since December 31, 2006. The main reason for this reduction is that West Virginia has issued no "new money" GO debt since July 2001. As stated in the definitions, the issuance of GO debt requires an amendment to the West Virginia Constitution which must be approved by a 2/3rds vote of both houses of the West Virginia Legislature and a majority of the voters.

West Virginia's GO bonds have been issued for road construction, school construction, veterans' bonuses and infrastructure development. All of these bonds carry a pledge of the state to levy taxes if funds are insufficient to meet debt service. Outstanding GO bonds include road bonds and infrastructure improvement bonds.

Road Bonds

The Safe Roads Amendment of 1996 had \$430 million outstanding (net of escrowed bonds) as of December 31, 2007. All GO road bonds that were authorized by the Safe Roads Amendment have been issued. There are currently no remaining authorizations for the issuance of GO road bonds.

The combined debt service on all Safe Road bonds is approximately \$50 million dollars through fiscal year 2012. The debt service drops to approximately \$36 million for fiscal years 2013 through 2016 and then levels out at \$23.5 million for fiscal year 2017 through the final maturity in 2025.

Infrastructure Improvement Bonds

The principal outstanding at December 31, 2007, for the Infrastructure Improvement Amendment bonds was \$243 million (net of escrowed bonds). The Division of Debt Management reports these bonds on a cash basis; however, there is one series of bonds that were issued as Capital Appreciation Bonds (CABs). All of the bonds are repaid from a dedication of the first \$24 million of coal severance taxes and the taxing pledge of the state to meet any deficiencies. All GO infrastructure bonds that were authorized by the Infrastructure Improvement Amendment have been issued. There are currently no remaining authorizations for the issuance of GO infrastructure bonds.

The combined debt service on the GO infrastructure bonds is a level debt service of \$23 million through their maturity in 2027.

School Building Authority Capital Improvement Revenue Bonds

The School Building Authority Capital Improvement Revenue bonds which utilize General Revenue appropriations for repayment consists of two refunding issuances. The principal outstanding on these bonds totaled \$215.6 million as of December 31, 2007. No “new money” bonds may be issued utilizing General Revenue appropriations for repayment; however, refunding bonds are authorized and \$185.9 million were issued in April 2007.

The combined debt service on the School Building Authority Capital Improvement Revenue bonds falls to \$11.8 million for fiscal year 2009 but remains level at approximately \$23 million for fiscal years 2010 through 2021. The two final years of debt service, fiscal years 2022 & 2023, falls to \$8 million and \$2 million respectively.

Lottery Revenue Bonds

The State's Lottery Revenue Bonds outstanding, as of December 31, 2007, totaled \$345 million. This total includes one issue of the School Building Authority (2004), one issue of the State Building Commission (1997), and one issue of the Economic Development Authority (2004). There have been three other Revenue Bond issues which utilize lottery funds for some percentage of their revenue stream; however, they are not classified as Lottery Revenue Bonds. They are as follows:

- The Economic Development Authority issued \$6.2 million in bonds for the construction of a parking garage at the state capitol in November 1999. This issue is secured through a lease agreement, which includes a non-funding clause, with the Secretary of Administration. Lottery funds in the amount of \$500,000 per year are appropriated to the Parking Garage Fund. This obligation is classified as a lease agreement.
- In August 2004, the Higher Education Policy Commission issued \$167.2 million in bonds for various capital improvements and projects at the state's colleges and universities. This 30 year obligation currently has a 2nd priority lien on certain monies of the Excess Lottery Revenue Fund (the 1st priority lien goes to the bonds of the Economic Development Grant Committee which were issued by the Economic Development Authority). Approximately 35% of the debt service on the bonds is paid from lottery funds.
- Another issue which utilizes lottery revenues for debt service is the \$10 million dollar issue of the West Virginia Hospital Finance Authority which was issued in March 2004. This issue is secured through a lease agreement, which also includes a non-funding clause, with the Secretary of Administration. The proceeds were used to construct a 120 bed long-term nursing home facility in Clarksburg, West Virginia. The annual debt service on the bonds is approximately \$660,000 and is payable from net profits from the sale of Veterans Benefit Game lottery tickets. The remaining funds needed to complete the project, approximately \$16.3 million, were provided from a grant from the United States Department of Veterans Affairs.

The combined debt service on the School Building Authority, the State Building Commission and the Economic Development Authority Lottery Revenue bonds is approximately \$46 million through fiscal year 2010. The debt service then continues to drop until it levels to approximately \$19 million in fiscal year 2016 through 2026. The final debt service on the Economic Development Authority Lottery Revenue bonds is \$6.8 million in fiscal year 2027. The following chart shows the combined debt service of these three issues; however, the particular amortization of each individual issue is detailed on pages 15 & 16.

Revenue Bonds

There are various agencies and authorities which have statutory authority to issue Revenue bonds. Since these bonds are self-supporting and derive their debt service payments from revenues of a particular program or project, the principal amount is deducted when calculating West Virginia's net tax supported debt. As noted on page 7, Revenue bonds constitute 31.5% of the state's gross tax supported debt.

Lease Obligations

The State of West Virginia depends on lease obligations to finance many projects relating to capital improvements. This is evidenced through the issuance of Lease Revenue bonds. Most of the Lease Revenue bonds of the State of West Virginia are issued by the West Virginia Economic Development Authority, such as the bonds issued for the parking garage at the capitol complex. The bonds are then secured by a lease agreement, typically with the Secretary of Administration. There was approximately \$388 million in lease obligations outstanding as of December 31, 2007. More detail is also available in Appendix B, "Debt by Agency."

*Please note that the Higher Education Policy Commission 2004B bonds have a 2nd priority lien on certain monies of the Excess Lottery Revenue Fund; however they are not included in the Lottery Revenue Bond calculation. The funds provided by the Excess Lottery Revenue Fund constitute approximately 35% of the debt service on outstanding Policy Commission bonds as of December 31, 2007.

Tax Supported Debt Service and Reserve Funds

There are no reserve accounts required for the General Obligation issues of the state. Descriptions of General Obligation payments are included to explain the funding source from which debt service is paid. Other tax supported bond issues are included to explain the various funding sources and the debt service reserve requirements on the particular issues.

General Obligation Infrastructure Improvement Amendment of 1994

The Infrastructure bonds are paid from the dedication of the first \$24 million in severance tax collections. The fund is administered by the West Virginia Water Development Authority acting on behalf of the West Virginia Infrastructure and Jobs Development Council. The West Virginia State Treasurer acts as paying agent for the bonds.

In November 2006, the West Virginia Infrastructure & Jobs Development Council issued \$94.2 million in refunding bonds which currently called \$53.2 million and advance refunded \$41.9 million of outstanding GO Infrastructure bonds. The refunding established an escrow account at Branch Banking & Trust (BB&T) to pay debt service on the advance refunded bonds when they are called, plus any premium which may be due. The table on page 10 details the refunded bonds as of December 31, 2007.

General Obligation Safe Roads Amendment of 1996

The Safe Roads bonds are paid from a debt service fund which is administered by the West Virginia State Treasurer's Office. The Division of Highways makes a monthly transfer to this fund from the Road Fund. The monthly transfer amount is equal to 10% of the annual debt service requirement on all Safe Roads Bonds. Upon receipt of the transfer, the State Treasurer's Office pays the debt service.

In May 2005, the State of West Virginia issued \$321.4 million in refunding bonds which established escrow accounts at United National Bank to pay debt service on the refunded bonds when they are called, plus any premium which may be due. The table on page 11 details the refunded bonds as of December 31, 2007.

School Building Authority Capital Improvement Lottery Revenue Bonds

The School Building Authority issued Lottery Revenue bonds in July 2004. The bonds are secured by a first lien on the net proceeds of the Lottery Fund.

There is a debt service reserve fund which was established when the bonds were issued. This reserve is currently funded with a debt service reserve fund surety bond in the amount of \$14.2 million (the debt service reserve requirement).

State Building Commission Lottery Revenue Bonds

The State Building Commission issued Lottery Revenue bonds in 1997 for the purpose of providing funds for education, arts, science and tourism. The bonds are secured by a second lien on the net proceeds of the Lottery Fund and will mature on July 1, 2011.

The bonds had a reserve fund balance of approximately \$2.6 million (market value) as of December 31, 2007 and a surety bond in the amount of \$7.3 million.

Economic Development Authority Lottery Revenue Bonds

These 2004 Lottery Revenue bonds were issued on a federally taxable basis for the purpose of providing economic development grants for various projects in West Virginia. A debt service reserve fund was established as part of the indenture of the bond issue. The debt service reserve fund requirement is an amount equal to the maximum annual debt service on the bonds. According to the indenture, the Authority may provide a reserve fund credit facility to replace all or any portion of the amounts on deposit in the reserve fund. This reserve fund had a market value of approximately \$19 million as of December 31, 2007.
